SUMMARY

Dedicated coder with 100+ problem-solving experience on GeeksforGeeks, seeking a software development role to apply programming skills and contribute to innovative solutions.

WORK EXPERIENCE

Linta Technologies OPC Private Limited, Software Engineer Intern Sep 2023 – Oct 2023

- Used Python and OOP to complete tasks and enhance coding skills.
- Participated in code reviews, improving teamwork and problem-solving.

PROJECTS

Customer Churns Prediction in Banking using Machine Learning

- Customer churn is a big problem in banking, hurting profits. This study uses XGBoost to find patterns and predict which customers might leave. Banks can use this method to improve customer service and keep more clients.

Personal Portfolio Website

- It showcases my personal and professional work in a structured format.

Tools used: HTML, CSS, Django.

Snake Game Implementation

- Built with Pygame, the Snake Game makes the snake grow when it eats food and ends if it hits itself.

Tools used: Python, Pygame Module, Random Module

Task Management Web Application

- Developed a task management app using Django with features to add, update, and delete tasks.

Tools used: Python, Django, Bootstrap.

EDUCATIONAL QUALIFICATIONS
